# SECONDARY SCHOOL

Discover Expanse Shape Tables

Discover Nebula and Expanse Shape Tables

The 21st Century Learning Commons enables technology making it easy to plug in devices. The furniture provides comfort and flexibility throughout the Learning Commons.

## project

A multicultural secondary school located in Toronto, Ontario updated a traditional library into a 21st Century Learning Commons. The new space encourages access to technology and offers sitting and standing height workspace.

Discover Four Leg Chairs

## design intent

The 21st Century Learning Commons accommodates technology allowing students to gather and learn around media tables. With furniture that provides comfort and flexibility it is easy for students to collaborate or work individually on projects. Mobile furniture on casters allow students and faculty to easily reconfigure the space.

Discover Nebula Shape Tables

## solution

Discover Expanse and Nebula Shape Tables were used with casters allowing easy mobility and reconfiguration. Discover Four Leg Chairs provide comfortable seating options. The HON Preside Café Height Table and Discover Swivel Stools offer standing height workspace.
