# FIRST BAPTIST CHURCH

## products

Expanse Discover Table  
Alphabet Cantilever Chair

Groups of four to six can easily sit around the fun Expanse Table

## project

The newly renovated Children's Ministry space at First Baptist Church has created a buzz! Children in grades 1-5 attend choir practice, Sunday school and Biblical programs in a fun and colorful environment...did we mention colorful!

## design intent

The bright colors of the furniture, walls and carpet create a fun, bright and colorful learning space for children. Discover and Alphabet make the classroom feel clean and contemporary. The flexibility of the Discover Expanse Tables and Alphabet Cantilever Chairs allow for quick reconfiguration and easy cleaning under tables.

## solution

The Discover Expanse Tables and Alphabet Cantilever Chairs were used in each classroom. The versatile tables can be arranged in multiple ways to create individual or group learning. Each table is equipped with casters allowing teachers to reconfigure the tables in seconds with just the tip of a finger. The Alphabet Chairs offer comfort and the perfect amount of flex for children to move without causing distraction.

The fun fluid lines of Expanse are shown in Tangerine laminate and paired nicely with the Apple Green Alphabet Chairs.

Configured into pods, Expanse is shown in Pomegranate laminate

Discover offers endless possibilities to create fun and colorful spaces that easily reconfigure to accommodate learning styles.
