- + Expanse Shape Tables
- + Alphabet Cantilever Chairs

Groups of four to six can easily sit around the fun Expanse table

PROJECT

The newly renovated Children's Ministry space at First Baptist Church has created a buzz! Children in grades 1-5 attend choir practice, Sunday School and Biblical programs in a fun and colorful environment... did we mention colorful!

DESIGN INTENT

The bright colors of the furniture, walls and carpet were meant to appeal to children and create a space that made children excited to learn. Discover and Alphabet make the classroom feel clean and contemporary. The flexibility of the Discover expandable tables and Alphabet cantilever chairs allow for quick reconfiguration and easy cleaning under tables.

SOLUTION

The Discover expandable table and Alphabet cantilever chairs were used in each classroom. The versatile tables can be arranged in multiple ways to create individual or group learning. Each table is equipped with casters allowing teachers to reconfigure the tables in seconds with just the tip of a finger. The Alphabet chairs offer comfort and the perfect amount of flex for children to move without causing distraction.
