TEXTILES & WALLCOVERING

Re: PFAS Soil Repellent on Textiles

February 28, 2024

We are pleased to announce that Momentum has achieved our goal of eliminating PFAS from our product line. Momentum textiles (and wallcoverings) are PFAS-free.

Guided by our commitment to the environment, human health, and good corporate citizenship, Momentum strives to provide our customers with a beautiful, durable, and sustainable portfolio that exceeds environmental standards and quality expectations. We take climate and human health seriously and took proactive measures in 2018 to eliminate added antimicrobials, flame retardants (FR), and any chemicals of concern from our textiles. In addition, all Momentum Textiles are Prop. 65 compliant, Red List Free (except for Clean Vinyl Upholstery), and Greenguard Gold certified. We can now add 100% PFAS-free, having successfully migrated all textiles to PFAS-free as of 1/1/24.

We worked closely with our suppliers to ensure that all patterns were either migrated out and/or transitioned to PFAS-free ahead of and in compliance with local, state, and federal laws. To meet the requirements currently in effect for the Department of Defense, AB-652 regarding Juvenile Products and CA AB 1817, please indicate at the time of order that inventory must be PFAS-Free.

Thank you for your continued support. If you have any questions, please feel free to contact me or your Momentum rep.

Regards,

Sincerely,

Julia Gillespie
