

Discover Four Leg Café Chair

Shell

Material: One-piece injection-molded polypropylene with an anti-static additive; color is integral (dispersed throughout) to prevent scratching. Textured on both sides.

Reinforcement: 15 integral wrap-around ribs for structural strength.

Handle: Integrated into the upper portion, with smooth edges for carrying.

Shell Attachment: Permanently fixed to the frame using 6 non-load-bearing steel rivets.

Frame

Construction: 4-leg design made of 1½ inch, 16-gauge tubular steel. All size frames are welded to two 14-gauge steel support braces with a continuous weld on all four connection points.

Welding: Front and rear legs are fully welded to two 14-gauge U-channel support brackets.

Finish: Available in nickel chrome or powder coat (applied after welding for better aesthetics).

Additional Support: A fully welded, wrapped 7/16" solid wire adds further frame reinforcement.

Bookrack

Construction: 1/2" main wire with diagonal #4 wire mesh.

Weight Capacity: Up to 300 lbs maximum capacity

Glides

Standard Construction: Nylon swivel glides are secured to the leg tube with an internal star clip and swivel 32 degrees.

Glide Option:

Steel: The best selection for carpeted floors

Non-skid: Soft rubbery base material made of elastomer/rubber/TPR

Felt: Features a replaceable cap and must be inspected annually to ensure debris does not build up

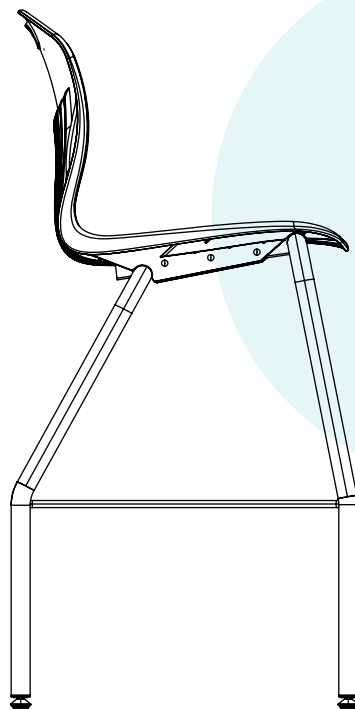

Boot glides: Made of a non-skid rubber base.

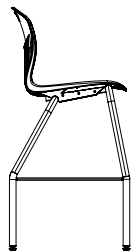

Compliance

> Rated for use up to 225lbs.

> Indoor Advantage™ Gold. Indoor air quality certified to SCS-EC10.3-2014

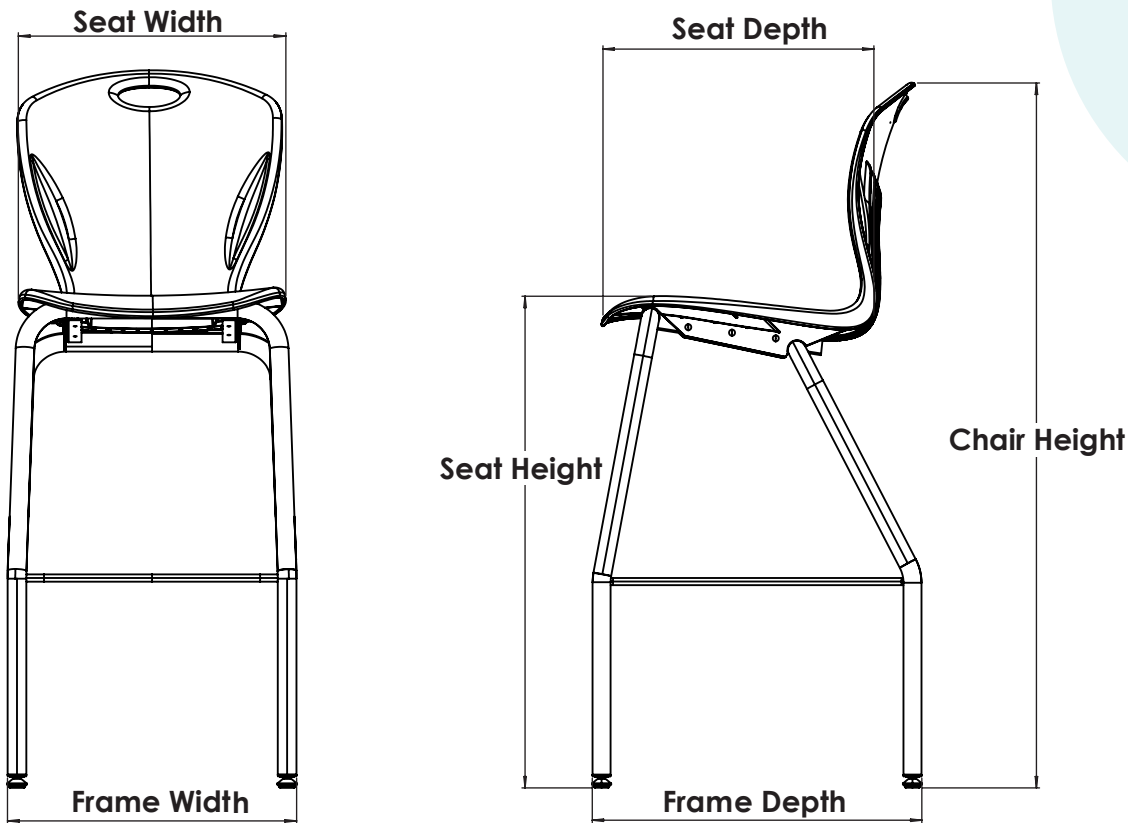

> Tested to applicable ANSI/BIFMA Furniture Standards
