

# Teacher Bench

36" wide by 17" depth castered storage with a cushioned seatpad. Unit is single-sided with thermofused-melamine cladding. Unit is standard with two adjustable interior shelves and a single door with locking capabilities.

## Ends, Partitions and Shelves

Frame and shelves are 1" thermofused laminates. All four exposed edges of the uprights are banded with 2mm matching PVC. All shelves are 36" wide by 17" depth. Lockable door is a 3/4" thick, 18" wide panel. Adjustable shelves are banded on the front and back edges with 2mm PVC. Adjustable shelves are not grooved or notched, allowing them to be fully interchangeable and reversible in case of damage or vandalism. Shelf pins are plastic, polycarbonate, twin-pin clips to hold the shelf in place and prevent shelf from sliding or slipping.

## Seat Pad

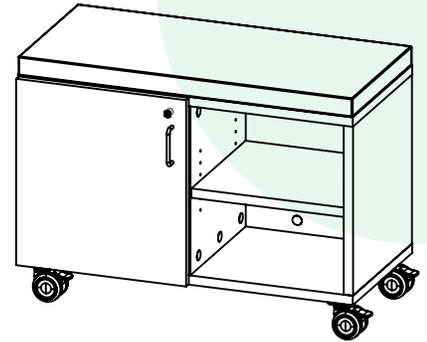

36" wide by 17" depth rectangular prism shape in ILD 95, high density foam. A slip-resistant gripper vinyl is added to the bottom cover piece to prevent slipping and sliding.

## NXT MOV Casters

Four 3" x 1.25" casters are fastened to the bottom of cabinet using 5/16" x 1" machine bolts at all 4 corners of the 4" square mounting plate. Metal to metal fastening at the caster to cabinet bottom for maximum strength. Weight capacity of caster is 240 lbs. each. Casters have ball bearing swivel, double roller bearings with split outer raceway to allow for easy mobility.

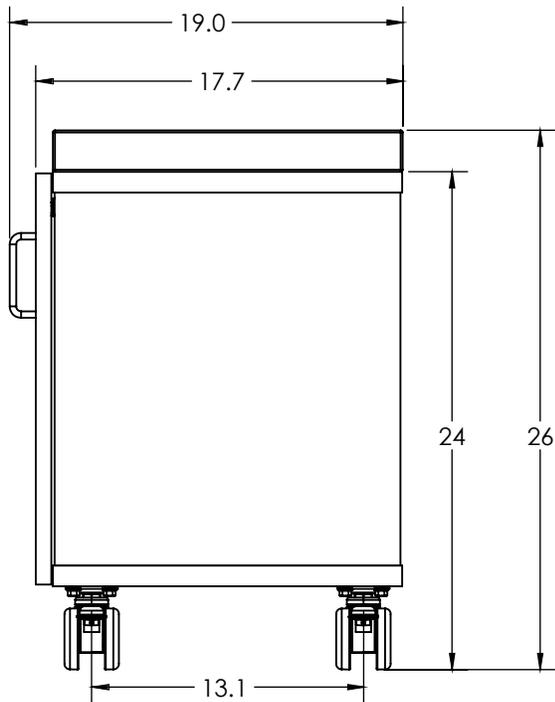

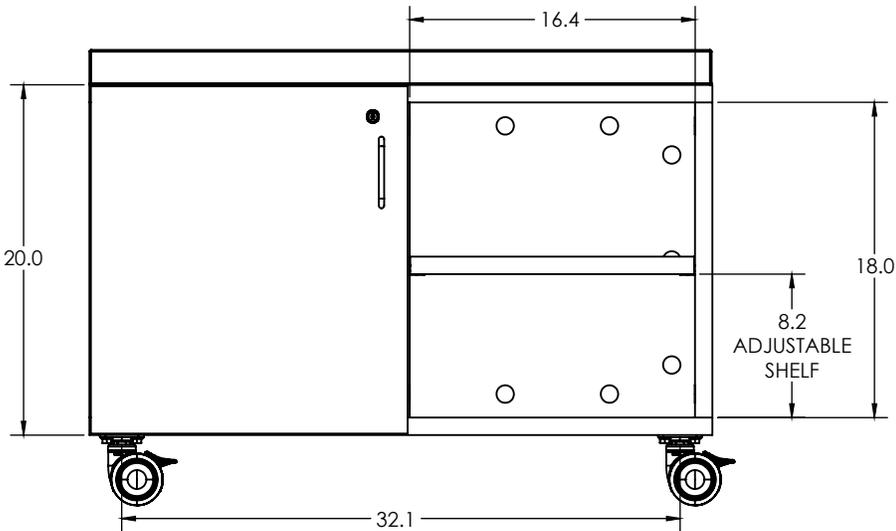

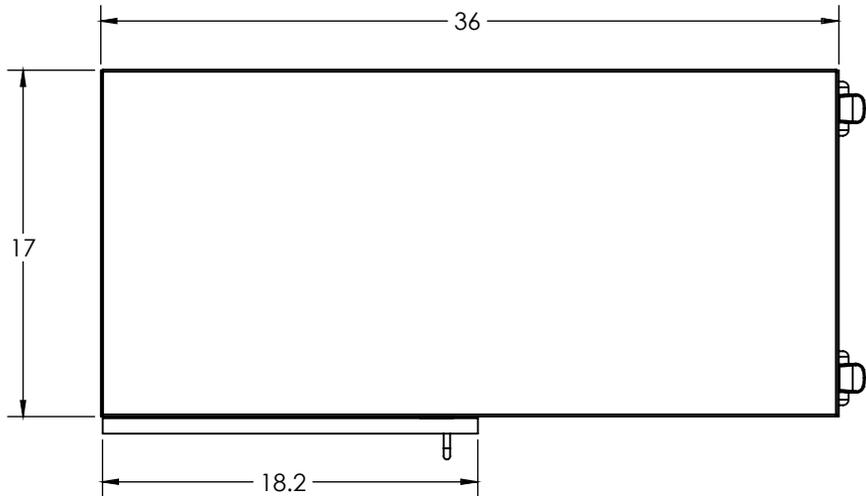

## Compliance

Tested to applicable ANSI/BIFMA Furniture Standards
