

# collaborative **CONVERSION**

At artcobell, we believe that a better world begins with a better classroom. Together we can achieve that but where do we begin? Let's start with a quick survey! Life in the classroom changes by the day, hour and sometimes by the minute! This questionnaire will measure the degree to which you and your students value mobility and flexibility in a collaborative environment. Your wants/needs will help us to help you design the best layout to inspire any learning environment while determining what works best for your school.
